Central Heating failed

10 / 10

Our central heating and hot water failed on the coldest day of the year with snow forecast. I telephoned AJS and left a message they called me back within 30 minutes I explained the problem and after giving them the make of the boiler they talked me through closing the system down and re-starting it, which cured the problem. I asked them to send me an invoice they declined and said they were pleased to help. Sterling service, I would recommend them to anyone with heating problems. **Customer in Maidstone, 6 February 2012**
