Most Recent Customer Feedback

Loft conversion

10 / 10

We appointed ACS to carry out a loft conversion to our investment property which we needed to put back on the market as soon as possible. We needed a builder who could carry out the loft conversion along with a few other refurbishment works within a specified time schedule and without compromise on quality of workmanship. After interviewing several builders and checking out references, we decided to appoint ACS. We had several meetings with Ayhan before work started, to map out a works schedule to make sure all timescales could be met. This was our first time as property developers so we were venturing into unknown territory and we couldn't have wished for a more patient and understanding builder. He was brilliant !!!

Suffice to say that the work was completed ahead of schedule and the end product was perfect. We will definitely be working with Ayhan on the next one. **Customer in Hove, 24 February 2012**

Repairs to a leaking conservatory roof.

10 / 10

Having had an ongoing problem with leaks to my conservatory roof I had a few repairs carried out in the past which never rectified the problem fully. I was recommended ACS by a friend and after having had the repairs done around a month ago and after several serious downpours I am glad to say that the problem has been sorted. I was very impressed with Ayhan's professionalism which instilled confidence in appointing him to do the work. He was very neat, tidy and punctual. Everything you should expect from a professional builder. I will be using him again to refurbish my bathroom in the very near future. **Customer in Hassocks, 4 October 2011**

Internal refurbishment of flat including removal of inner wall, creation of open living room/kitchen and creation of 2nd bedroom.

10 / 10

This was a big project and we were naturally apprehensive. However Ayhan and his team were superb and did a fantastic job. The work was of the highest possible standard and quality. Ayhan's team were professional, reliable, and completely trustworthy. The work was accurately specified and Ayhan remained within budget. We were delighted with

the final product and would give ACS and Ayhan the highest possible recommendation. Ayhan genuinely puts the customer first. **Customer in Hove, 12 August 2011**

Removal of stud walls, relocation of front door.

10 / 10

I went with Ayhan for the work to my flat based on the impression I got of him when I met him and the reviews I had seen on this site. I can confirm that the comments here are accurate. Ayhan's work is to a very high standard. I got the impression that he was dealing with me and my flat the way he would like to be dealt with if roles were reversed.

Bathroom refurbishment

9 / 10

Ayhan was reliable, knowledgeable and hard working. The final price was as quoted and the standard of workmanship high. I have scored ACS on all of the tradesmen involved, including sub contractors. I have recommended ACS to family members and plan to use them again for another project. **Customer in Burgess Hill, 7 April 2011**
