Most Recent Customer Feedback

Changed 2 radiators after 1 of our old ones burst and serviced boiler 10 / 10

This is the second time I have used him and he was brilliant. He offered practical advice over the phone and was quick in attending. The invoice was just as quoted and was far more reasonable than any other local company I have got quotes from before. He was honest about the work required rather than trying to add things or make out more needed to be done. The work was carried out quickly, cleanly and to a high standard. I would highly recommend him and intend to use him for anything in the future. **Customer in Camberley, 7 February 2012**

Boiler installation 10 / 10

AGS were recommended by a friend and I'd have no hesitation in also recommending them. Adrian spent a lot of time discussing the various options while giving us a quote, and gave us excellent service. Very pleased with the new boiler installation and friendly service. **Customer in Aldershot, 2 February 2012**

Remove gas oven and cap gas, remove old gas hob and install new one. 10 / 10

Adrian carried out the work at the time and cost agreed. Although a lot needed doing it wasn't a problem, he even helped me install the electric oven as this was plug-in only. Would highly recommend him to anyone, and should we need a plumber again we would call him straight away. **Customer in Farnborough, 14 December 2011**

Complete overhaul to heating system 10 / 10

Adrian carried out the work exactly as estimated our home has never been this warm before and we thoroughly recommend him 110 percent **Customer in Aldershot, 21 October 2011**

Disconnecting gas supply to cooker 10 / 10

Called other gas companies who had no interest in this job, but called AGS and job no problem at all - "if cooker went in then it has to come out" and it did. Very pleased and would use him again. **Customer in Fleet, 16 September 2011**
