Most Recent Customer Feedback

Installed a new Freesat Dish and with new cables into the house. 10 / 10

Alan took down old Sky Satellite Dish and installed a new Freesat Dish and with new cables into the house. He then set up the new Smart TV and Humax recorder and bluray player and then showed us how to operate them. A very good price as well. Before we purchased the equipment he gave us feedback by email on the different merits of the different items we were considering. We are very satisfied and have no hesitation in recommending Alan to anyone. **Customer in East Grinstead, 2 February 2012**

Fitted a new Ariel for digital TV reception to my chimney 10 / 10

All very neatly and professionally done - and it must have been horribly cold up on my roof that day too! The TV reception is now excellent - I'd be very happy to recommend Alan. **Customer in East Grinstead, 1 February 2012**

Investigation of weak signal and adjustment to amplifier in attic 10 / 10

Good time keeping, took the trouble to find out exactly what was the problem and proposed sensible economic solution. **Customer in East Grinstead, 31 January 2012**

Fitted new aerial and 3 new sockets and cabling. 10 / 10

Very prompt, informative and thorough. Did a very tidy job and made sure I was happy with the work. Really helpful and explained everything. He gave the best quote and I felt I could trust him to do a good job. Other quotes were more expensive and for less work. I would certainly recommend him to others. He doesn't rip people off! **Customer in Crawley, 20 January 2012**

New 4 way amp connected to existing coaxial cable. PSU installed behind tv.

Old tv aerial removed

10 / 10

Alan arrived on time. He needed parts that he went away and got. He came back and did the job. He answered all our questions and left us with a better tv picture than the one we started with. **Customer in Oxted, 14 December 2011**
