#### Full Central Heating and Boiler Installation

10 / 10

Very happy with the installation of the central heating system. Ran all the pipe work exactly where we wanted it and cleaned up after themselves every evening before leaving. Very friendly and courteous, would highly recommend.

#### Replaced pipework under kitchen sink

10 / 10

The original job was done about 5 years ago by another local company with a good reputation. However it looked a complete bodge-up and we often had leaks and spillages of waste water from the sink and the washing machine and dishwasher. Now Anthony has made a much neater job of it and everything works perfectly. We have a few more plumbing projects in the pipeline(!) and we will definitely use Anthony again when the time comes to get them done.

#### Replaced Shower and taps to bath and sink in bathroom

10 / 10

He was very friendly and helpful. He found the items that was needed for the job and phoned to let us know what it would cost for him to do the job. The price was reasonable and he went ahead and did the work. The price I was charged was the amount quoted. He was very tidy and cleaned up after he was finished the job.
