Most Recent Customer Feedback

Imprinted concrete driveway

10 / 10

The work has been completed to a very high standard. The work force was extremely polite and explained every step very clearly. We are very happy with the work carried out even in some bad weather conditions and will be recommending Approachways to our friends and to people who we work with. **Customer in Waterlooville, 7 February 2012**

New imprinted concrete driveway

9.8 / 10

Good quality work, on time and budget, slight issue with the sealing due to damp weather, should be resolved early spring. **Customer in Greenford, 27 January 2012**

Concrete driveway

7 / 10

Work was well done and looks very good. Customer communication was poor, as some good weather days were missed, completed 3 weeks late. **Customer in Uxbridge, 17 January 2012**

Reply from Trader: This driveway was started in mid December and was programmed to take approximately two working weeks from start to finish, weather permitting. Due to inclement weather, the driveway was not sealed before the Christmas holidays. This customer was advised that we would be not working over Christmas and also that the Acrylic sealer that we use can only be applied in dry conditions with no risk of rain and with temperatures above freezing. Inclement weather will always affect our ability to carry out certain stages of any installation and although we make this perfectly clear to every customer, unfortunately delays can occur. Approachways prides itself on extremely high standards of workmanship, customer care and value for money as our existing feedback shows and in this instance we feel that we have done everything to provide this customer with a first class installation during the winter months.

Concrete imprinted driveway.
