Most Recent Customer Feedback

Repair and re-plaster of spare room 10 / 10
Great service, very happy. Brilliant communication, with very clean and tidy work. **Customer in Haywards Heath, 30 April 2012**

Bathroom walls and ceiling plastered. 10 / 10
Work carried out quickly, cleanly and to a very high standard. Excellent service, will absolutely use Adam again. **Customer in Brighton, 17 April 2012**

Replastering around front door 10 / 10
Punctual, polite, tidy and conscientious **Customer in Haywards Heath, 14 April 2012**

Main bedroom plastering 10 / 10
Adam was punctual, reliable and his work was first rate. Extremely good quality plastering. I would hesitate to recommend him - many thanks **Customer in Haywards Heath, 21 February 2012**

Plastering repairs, coving repair and minor refurbishment 9.3 / 10
Overall, a good job. The only dissatisfaction was that having given a quote that stated "There will be no extra added charges to this price", APS Plastering later said they would charge extra to remove the rubble from the house. **Customer in Haywards Heath, 6 February 2012**

Reply from Trader: My quote did say there would be no extra charges but I do not price in to remove waste, as I get charged to dispose of rubble, so I think its always best the owner tips it free of charge. I only suggested he should tip the waste. Although this job had 10 rubble bags, I took 5 away and I took all the broken bricks away. I did not say I would charge extra but suggested its free for the owner to dispose of. So in the end we split the

waste without the customer having to pay any money for disposal. My aim is to always have the customers still in pocket and find the best solution for both.
