Complete new boiler, all new radiators and a replacement shower 10 / 10

I was kept very much in the picture of how the work was proceeding, and always given time to make necessary decisions. They thoroughly cleared up every evening before leaving and were at all times courteous and pleasant to have around. The final bill was exactly as estimated, although I know Paul went over and above the call of duty. Thank you. **Customer in Farnborough, 2 April 2012**

Installation of new boiler and extra radiators 10 / 10

The work was done in a very neat and methodical way with the least possible disruption to my house and very thoughtfully. I was very pleased with the way that Paul and the two other people he employed were courteous and unobtrusive. **Customer in Camberley, 26 March 2012**

New boiler fitted 10 / 10

Paul was incredibly professional in all aspects of the job. He provided a competitive price and made me feel completely safe and I trusted him immediately to complete the work to a very high standard. Paul worked efficiently and tidily and was kind enough to stay at the house till I returned home from school to give me daily feedback on how the work was progressing. I would not hesitate to recommend Paul to friends. He worked to a very high standard throughout the week and was very kind and sincere. I am delighted with my new boiler and thank you Paul. **Customer in Aldershot, 7 March 2012**

Replace Boiler, Hot Water Tank and fit Magna Clean 10 / 10

Paul's work was excellent. He was very professional and took time to explain all the procedures he was taking and he went the extra mile to sort areas I would not have expected him to do. I can only enthuse how beautifully he executed the whole job from start to finish, 1st Class. I would certainly recommend him to anyone he made the whole experience of renewing my boiler trouble free. **Customer in Camberley, 15 February 2012**
