Installation for new desktop tower and new wifi printer together with windows 7 software and Office including laptop / Pc wifi system

10 / 10

Bought a new laptop and desktop within 3 months and Andy has come to setup and modernise whole scheme most professionally and successfully. Originally I saw the advert for his company in the "tarring pages" that came through the door. I phoned and was quoted for setting up of wifi. From then Andy has always been my only choice of helper for all things technical. He advised my which brands of laptop NOT to buy and approved of my windows 7 new tower - I was running on XP / vista(It) before so all things are faster and different to look at. Through my fault Andy had to return several times as I kept finding others things I wanted help with. It is now finished to my complete satisfaction and the invoice was a most pleasant surprise..... I wholeheartedly award 10s in every category to this company and to Andy in particular. Use them with confidence - you will not be disappointed. **Customer in Worthing, 2 February 2012**
