Most Recent Customer Feedback

Pruning a tree which was snagging BT's telephone cable

10 / 10

Reasonable quote. Turned up in good time. Double-checked exactly what I wanted *before* doing any cutting. Removed all debris and left the garden tidy. Completely met my requirements. **Customer in Worthing, 25 January 2012**

Removal of the tree, tree grinding, levelling and re-turfing

10 / 10

Over the moon with all of the aspects of Phil's work, impeccable workmanship and would recommend without a shadow of a doubt. Thank you Phil. **Customer in Lancing, 21 November 2011**

Felled a large tree and cleared all debris

10 / 10

Excellent work - they took care not to damage any other plants in the garden and took their time felling around the phone lines. They were asked to save some suitable sections of the tree for wood turning which they did and even without asking they offered and carried these large sections to where I needed them. Truly dedicated tradesman who took great pride in their service, I would recommend them without question. **Customer in Littlehampton, 27 October 2011**

Fell Large 60ft + Lime tree in rear Garden

10 / 10

Phil and his team arrived on time in the morning and went straight to work. They were extremely proficient in their task. I was impressed that they all had the correct personal protective equipment and used it well. They completed the task very quickly with no fuss and cleared up extremely well afterwards. Very Highly recommended and I will use again.. **A++++ Customer in Littlehampton, 11 October 2011**

Arbutus tree stump reduced and treated so that it will rot away

10 / 10

Philip took care to get the stump as low as possible, despite us discovering a metal rod which had been an original support and around which the trunk had grown. He also cut down a small shrub trunk which was a big help and left the site as tidy as was possible. **Customer in Worthing, 27 July 2011**
