### Most Recent Customer Feedback

#### Removed old concrete driveway and installed new block paving

9.5 / 10

I got 3 quotes for this work, George's was in the middle but I was impressed that along with the quote came a list (unsolicited) of numerous driveways his company had done in the local area, which meant we were able to view finished examples of his work before deciding. His team did a great job of laying our new driveway, and I would recommend them to anyone. The guys who did the work were extremely polite and tidy, and kept us informed throughout the project. My only criticism is that more care needs to be taken when preparing the ground; we had our broadband cable cut (twice!), a light at the end of the driveway smashed and some damage to a brick pillar and wall. All this was put right and some of it was due to third party contractors, rather than George's team, but it was annoying never-the-less. **Customer in Worthing, 16 January 2012**

Reply from Trader: In response to the customers comments. We are grateful for their input and high scoring we are a little bit saddened that they felt that they had to put on our report the details about the cable, light, wall and brick pier. In my defence I did bring it to the customers attention before starting that the brick pier was damaged and we repaired it for them at no cost. The wall was extremely old and had been built on the concrete original driveway which we cut around to minimise damage which was explained before starting. We did advise them that the wall should have been built on its own footings. There was slight damage as expected but we did repair it without cost. The NTL cable was sitting in the expansion joint of concrete it should be at least 300 deep not 3cm's it was repaired next day but but the customer wanted it to be diverted anyway so that was fate. With regards to the light being broken, the grab lorry did try to be careful but it was tight and we did reimburse that cost so the customer could purchase a new one. We are sorry if these things caused you any distress but some things are hard to avoid, others just happen, the important thing is that they were corrected instantly or as soon as possible. We would like to thank the customers for their custom they were both lovely people and it was a pleasure to work for them.

#### New driveway.

10 / 10

We looked at other firms work but no comparison. Arun Driveway are in a league of their own. I would recommend this company. **Customer in Abertillery, 20 December 2011**

**Driveway and patios paths.**

10 / 10

Designed by George and credit to the industry and Checkatrade, Thank you. I would recommend this company.  
**Customer in Littlehampton, 15 December 2011**

**Large driveway.**

8.8 / 10

Rather long breaks during each day. Could have finished bit quicker. Rate change when boss appeared! **Customer in Littlehampton, 8 December 2011**

**General work.**
