#### Solved plumbing problem in connectionwith water softener 10 / 10

My wateer softener had not been working for some months due to a problem which ocured after I had a new kitchen fitted. I approached a couple of plumbers but they were not prepared to take on the work. On his first visit Mr. Braybrooke-Tidy investigated and explained clearly what he tbought was causing the problem. On his next appointment he carried out the work and was proved right so I am delighted that I now have a softener that works due to a very knowledgable plumber. **Customer in Camberley, 1 March 2012**
