After an initial call out to fix my non draining bath, I decided to hire Lee Barratt to do some more major plumbing work. This involved moving the house stopcock so it was accessible, replacing my broken bathroom sink, replacing the ballvalve on the toilet and fixing my power shower (replace the pump, earthing). We are waiting on the delivery of the replacement ballvalve, and everything else is done according to my wishes. **Customer in Christchurch, 5 April 2012**
