Complerte Boiler re-siting and replacement

9.5 / 10

Tim and Alex arrived on time both days, worked full time while here, and adapted the fittings/work to address all unforeseen changes. Place was a bit of a mess while work was carried out, but not a major problem. Overall, it was a first class job, on time and on quote. Can't say more. **Customer in Waterlooville, 24 April 2012**
