Cleaning driveway and protection using sealer. 8.5 / 10
 In 2011 delay in starting the work and overcoming weed infestation between the paving of the drive resulted in the work being postponed to spring 2012. I would recommend this company. **Customer in Farnham, 29 March 2012**
 Reply from Trader:
 "The work was unfortunately delayed due to the time of year and weather conditions. On advice from the sealer manufacturer, the sealing of the driveway was completed in March 2012 as it had to be 100% dry weather conditions for the sealant to be effective. Unfortunately, this delayed completion was unavoidable but necessary to ensure the quality of the finish."
