New boiler replacing old back-boiler

10 / 10

Richard and Matt turned up on time and completed the work within their stated timeframe. They worked well as a team and were polite and courteous to us throughout, explaining how everything worked. The workmanship was excellent and each day they left everything neat and tidy; they cleaned up and took everything away with them when they left. They had respect for us and our property throughout and worked hard to make sure that we were happy with what they were doing. Even though they did a couple of additional small jobs - removing old redundant pipework that wasn't part of the original specification, - they charged their original quote. The pipework and boiler they installed is very well done - they took care to make sure we were happy with the boiler position and where the pipework would go before they installed it. Similarly, they took the time to check the position of the thermostat and receiver unit before the electrician installed. I have no qualms about recommending them to friends, family, neighbours or anyone else that might want a recommendation before using them. They are reliable and trustworthy. **Customer in Farnborough, 27 April 2012**

New boiler installed

10 / 10

Very competitive quote, excellent timekeeping. Boiler had to be repositioned and all the work was finished very neatly. I would recommend this company. **Customer in Farnborough, 23 April 2012**

Bathroom and downstairs cloakroom

10 / 10

Classic Heating Ltd fitted a replacement bathroom and downstairs cloakroom for us. They started and finished the job on time. The bathroom was completely stripped out re-plastered, re-tiled and re-fitted to a very high standard. The cloakroom was re-fitted and tiled we are very pleased with the finish. We have used them previously to do other jobs at our house and are very pleased with their work and would recommend them to everyone. Separate trades were used for plastering, and electrics, all co-ordinated for us by them, we didn't have to do anything and they left the place clean and tidy every night with all rubbish taken away.

We have had many positive comments on the work carried out from guests. **Customer in Fleet, 14 April 2012**

Replaced 25 Year Old Boiler

10 / 10

Richard gave me an extremely competitive quote on a replacement boiler, controller, thermostat, and a new addition - a MagnaClean, this all represented a saving of £1500 over a British Gas quote! Richard and his team arrived promptly for the start of the work and completed everything well within the day, I can only describe it as super efficient! Sad, but I quite like opening the garage door just to look at my new Worcester Bosch 24Ri knowing that it's now saving me money. Will recommend him wherever and whenever I can. **Customer in Farnborough, 11 April 2012**

Condenser Boiler installation

10 / 10

Richard gave a good value quote compared to the 2 other quotes I received. The installation was very neat and clean after completion. I have already saved money on my gas bill (March bill was £81.07, April bill £54.79) the house is warmer and heats up much faster on less gas. I am totally thrilled with my new boiler. And the service I received. Did have a bit of difficulty with the new thermostat but Richard came over the same day to fix it. **Customer in Esher, 23 March 2012**
