Loft Conversion (with ensuite) to Timber Framed Home with Truss Roof 10 / 10

Having researched loft conversions on the Internet, we were left in no doubt that a loft conversion to a timber framed home with a truss roof was a very complex task, indeed. So, we were delighted when Richard Guest of Cool Home Improvements agreed to undertake the job, and at a very competitive price, too. Our loft conversion (with spacious ensuite) was completed ahead of schedule, and to a very high standard, thanks to the professionalism and workmanship of Richard, Will Brooks and the rest of the team. It was a pleasure having such friendly professionals around the home for the three weeks it took. Highly recommended. **Customer in Christchurch, 5 April 2012**
