Fitted roof flashing to boiler flue pipe

10 / 10

As normal Gary kept his word and his workmen turned up on a very rainy and windy day to fit the flashing to the flue we were fitting which allowed us to complete the works on time and keep our own client happy without any interruption to their heating and hot water. Coomber roofing were able to safely carry out the works without the use of scaffolding but within health and safety regulations and which saved a fortune against a costly Scaffold erection. Great Job yet again. Reliable, clean and tidy and more than reasonable with their charges. **Customer in Brighton, 4 January 2012**
