wiring of lights including new switches, removing obsolete wiring to old appliances, installing new light fittings, extractor fan in bathroom, removing jacuzzi wiring, new/additional power points, and installing RCBO board according to IEE regs. Providing NICEIC certificate

10 / 10

John Dray visited our house and gave us confidence that all would be done well with qualified electricians. The estimate gave itemised details of work to be done. My husband and I dreaded this work being done but the electricians and

apprentice were superb. We immediately felt confidence in them and their work and were able to leave them to work while we went out Their work was exemplary, very tidy workers, intelligent and articulate explaining what was being done throughout and asking if we were satisfied with what they were doing. They were considerate and everything was done with the minimum of upheaval and anything moved was put back. Good, thorough workers. Well done and a pleasure to have in our home.. **Customer in Brighton, 17 October 2011**
