**Replace pump for showers and bathrooms** 10 / 10  
We had a problem with the pump that supplied water to the showers, in that it wouldn't stop running. David was very helpful, and checked with the manufacturers to try and get to the bottom of the cause of the problem. He advised me of what needed doing and how it could be done by re-sighting the pump as a way of keeping the cost down. In the end I opted for a new pump and we are very happy with the work that he and his colleague did. So I recommend him and would use him again. **Customer in Hassocks, 1 February 2012**
