Excellent service, they both worked very hard and knew exactly what had to be done, cleaned up afterwards also. Very pleased with result and would recommend to anyone who needed a reliable, efficient reasonably priced job. Mr and Mrs Finn **Customer in Horley, 13 March 2012**

New Boiler installation

9.8 / 10

My Wife found DCI on this site and called for a quote along with other companies. DCI turned up when arranged and didn't try and quote over phone without seeing the job in hand. Once price was arranged DCI turned up on time and completed the work in a timely manner without any inconvenience to myself or my kids. The quality of the work completed is to a high level. All work covered by a 1yr warranty and I wouldn't feel put off calling for any help. **Customer in Crawley, 15 February 2012**

New condensing boiler

10 / 10

Steve from DCI gave a very competitive quote in November and arrived on time on the day of installation, they put protective sheets down on the floor then commenced work on removing our old clapped out boiler and re-routing pipes etc as our new boiler couldn't go where the old one was, a very professional job done by a very pleasant, polite chap who ensured that all was working fine and every thing left clean and tidy after install was done, I would not hesitate in recommending DCI to anyone.....well done !!!! **Customer in Crawley, 1 December 2011**

Very happy with the service. Someone came round the same day as contacted to provide an estimate for the work and on the day of the fix arrived on time as agreed. The work was done in a professional manner, taking his time to make sure the newly fitted carpet was protected in the process. Very happy with the work done and all done for the estimated price.
