Most Recent Customer Feedback

Locating a fault to a telephone point

9.8 / 10

He arranged to be at my house in Portslade between 2 pm and 2.30 pm. I had to travel from Lancing to be at the house and arrived a few minutes after 2 pm. He was already there. There are four telephone points in the house and it took him no longer than 15 minutes to locate and repair the problem. He was pleasant, polite and courteous. A job very well done. I would use Jeff Smith again if required and highly recommend him. Mrs E Hill **Customer in Lancing, 8 May 2012**

Check telephone points for broadband failure

10 / 10

I was very impressed with Jeff's manner when I first contacted him by phone regarding the problem I was having with internet connection. He told me the charges and when the work was finished I was not asked for any extra. The work itself was fairly complicated (to me!) but Jeff investigated and completed his task and waited for me to make sure both the computers I used were able to get onto internet. Jeff was very well presented and parked considerately (something I watch for - hate it when tradesmen park on the grass verge!) and he was most polite. Would definitely recommend him and use again! 5* company! **Customer in Brighton, 26 April 2012**

Telephone wiring, add new points.

10 / 10

The work was carried out to a high standard, very neat clean and tidy. 7666 was very easy to speak to and polite and friendly. **Customer in Lancing, 4 April 2012**

Installation of additional telephone point

10 / 10

Mr Smith arrived at the agreed time and carried out the work neatly and competently. I would be pleased to recommend him. **Customer in Hassocks, 6 March 2012**

Repair to telephone socket and re-siting of socket

10 / 10

Very prompt response. Polite and courteous whilst working and given good advice. **Customer in Eastbourne, 7 February 2012**
