#### Installed bathroom suite and plumbing and tiled walls. 10 / 10

Having removed a partition wall between a bathroom and toilet I soon found that the job of installing the bathroom and undertaking all of the tiling was beyond me. Keiran provided a very competitive quote and was able to fit the work that was asked of him around some DIY that I felt was within my limited capabilities. Keiran removed all of the old bathroom suite and prepared the room ready for installation work. The next step of moving water and radiator pipes showed Keiran's eye for detail and his impressively high standards of workmanship. A number of delays were encountered due to problems with some of the fixtures that I had bought. Keiran was patient while I sorted the problems and his flexibility allowed him to return promptly to allow work to continue. The bath, shower, toilet, basin and bath screen were all expertly fitted. With a particularly tricky room to tile, Keiran dealt with the more problematic areas for me and without his expertise I would have emptied the DIY store of the tiles that I had chosen! The work now complete I could not be happier with Keiran's work. Throughout he was courteous, polite, always on time and highly professional. I could not rate him highly enough and I would certainly have no hesitation whatsoever recommending him. **Customer in Lincoln, 11 May 2012**

#### Service and repair unvented hot water system, replace faulty hob 10 / 10

Dripbusters were very helpful. As an overseas landlord I really appreciated keiran keeping me informed about costs and timings as the work progressed. Dripbusters have lived up to their reputation and I will continue to use them. **Customer in Lincoln, 2 May 2012**
