Most Recent Customer Feedback

Leaking Roof to House

10 / 10

Darren and his team called approx 30mins before they arrived on site ensuring it was ok to arrive as it was just before 08:00. Much to my surprise they were up the ladder and started on the job removing tiles and stripping the roof back to the joists straight away. Unlike previous builders that ive known that have to have tea and fag before the ladder comes out.. They were polite and hard working despite being cold and wet.

Excellent and well pleased with the job done **Customer in Basingstoke, 14 May 2012**

Two storey side extension with a single storey extension to rear

10 / 10

When looking for a builder to complete our work we were very nervous of how to go about looking after watching many of the horror stories of other peoples experiences on TV. However, for us this could not have been more different. We have been lucky to find a team in DW Builders that have given us the exceptional finish to our home that we dreamt of. Darren and one his employees Matt are a credit to the building trade. Not only did they finish the job on schedule but they arrived each day when they said they would and left once they had completed the daily schedule as laid out in our contract (even staying until 11pm one evening when the fixing of a steel had not gone to plan!) This I believe is over and above their duty but shows the professionalism of DW Builders. They were polite and courteous and would put most cleaning companies to shame with their cleanliness and at times I had to pinch myself to remember we were living in a building site!! We would highly recommend them to anyone taking on a building project.

May we take this opportunity to thank Darren and his team for their hard work and for our fantastic finished home.

Total Refurbishment of Victorian Cottage plus single storey extension

9.8 / 10

Being a Lady embarking on my first Project Management experience was quite daunting! Where to begin, Architects, Building Regs, Rules, Builders speak! Could of really been a nightmare. My Victorian Cottage was going to be my family home so had to be perfect! Darren, Matt and his team of sub contractors were fantastic! Not only great tradesmen but

really friendly and happy to explain everything along the way. Highly recommend DW Builders to anyone! Thanks for everything.

Single storey kitchen extension and room refurbishment

10 / 10

We can thoroughly recommend DW Builders. Darren is friendly, professional, reliable, trustworthy and honest. Darren built our ground floor kitchen extension with which we are really pleased. All of Darren's team were equally professional. The quote was competitive and Darren didn't mind us changing things, for example, using our own plumber for various bits. Where we hit unexpected problems, Darren explained the issue and how the problems could be resolved. Darren takes pride in the quality of the finished job and doesn't like to cut corners. He is possibly the tidiest builder ever - the way the skips were filled fascinated the whole street! We will use DW Builders again for other jobs in the future.

Single storey front and side extension; kitchen skylights

9.8 / 10

We were very pleased with the service provided by Darren, Matt and all of their sub-contractors. The work was finished ahead of schedule and to a high standard, and all for a very fair price. We wouldn't hesitate to use them again.
