### Most Recent Customer Feedback

#### Total house re-wire including new lighting system plugs/sockets and new consumer unit 10 / 10

I would definitely use Andy again. The standard of work was excellent and we are extremely happy with the results. I would have no hesitation in recommending him to others in the future. **Customer in Camberley, 17 May 2012**

#### Install 2 Electric Ovens 10 / 10

Left a message on a Sunday asking for help. Gave me a time when they would phone back and quote and they did. Agreed install date and time, kept to the date. Gave me an estimate and though the job was trickier than envisaged and involved extra work, stuck to the quote. Great service and would recommend. **Customer in Farnborough, 23 April 2012**

#### Identify where an electrical fire came from and replaced plugs etc 10 / 10

I really liked Andy as soon as I met him. He introduced himself and explained everything he did and planned to do. He was very professional and charged the given estimate he gave me on the phone even though the job took a bit longer. He was very chatty and pleasant and gave lots of good advice and tips. I wouldn't hesitate to use Andy again and plan to do so when we move house this summer. Really pleased with his work and would be happy leaving him to get on with a job whilst I went out. As a female I didn't feel I was being had over or taken advantage of as some tradesman have a tendency to do. **Customer in Camberley, 14 April 2012**

#### Supply and Installation of Solar PV Panels 10 / 10

I was impressed that the person who came to advise me and provide the initial quote was an installer and not a salesman. I felt confident in his knowledge and experience. I appreciated Andrews efforts in arranging for the panels to be installed quickly and am very happy with the end result. Thanks. **Customer in Woking, 27 March 2012**

**Sorted out several previous botched jobs and installed new consumer unit, ring main, downlights and other wiring for future projects.**

10 / 10

Andy is exactly the sort of guy you would want doing electrical work in your home, where reliability and safety are key. He was able to provide guidance and advice on solutions to other issues concerning my property that arose during the works that were being undertaken by him. He explained every part of the job prior to completion. Both Andy and his apprentice Louis were completely trustworthy and I will definitely use Earth Electrical Ltd for all the electrical jobs I have in the future. Highly recommended. **Customer in Crowthorne, 22 March 2012**
