Fixed slow/frozen computer. 10 / 10

Home computer had been gradually getting slower and slower. Philip cleaned the inside, installed additional memory and removed various nasties! Also advised me on how to back up important data. Computer now works perfectly.

Restored home computer to full working order 10 / 10

Was seeing dire warning screens and, although I could access programmes I could not use them. Philip resolved the situation in a professional manner and gave advice on future use. Left with PC in as new state for which I am very grateful.

I would recommend Philip without hesitation. **Customer in Alton, 3 December 2009**

repaired pc 10 / 10

Phil turned up on time to repair my pc but needed to take my pc home with him to work on over the weekend, he left me with a pc to use whilst mine was being fixed. He kept in touch over the weekend with progress and to inform me on when mine would be returned. Very reliable, honest and definitely not out to rip people off. I will definitely use him again and highly recommend him to others.
