Fitting of ceiling lights 10 / 10
Excellent introductory advice re power usage and heat temperature in ceiling void and potential fire risks. Advised correct model and type of lights necessary to comply with legal safety limits (something we had not thought of when ordering lights.) Frazer arranged to change the lights for the correct models with the supplier on our behalf. He carefully and tidily prepared the holes in the ceiling prior to plastering and returned promptly, as arranged and on time to fit and test the lighting system. Had he not advised us of the potential hazard of fitting the wrong lights we could have faced an unknown danger of fire risk. If you have safety in mind then he's definitely your man for the job. **Customer in Hindhead, 26 April 2012**

Changed piece in down lighter (not the transformer). 10 / 10
