Most Recent Customer Feedback

Fitted new aerial booster box

10 / 10

Excellent service. Gave me the price for renewal and came back the same day to fit the new box and in the dark! Would recommend. **Customer in Lancing, 5 January 2012**

Removal old aerial, Installation new aerial.

9.5 / 10

My existing aerial was blown down during the very strong winds. Found GC Aerials in Checktrade, contacted them in the morning and they arrived early afternoon to look at the work required. Price given was reasonable and they would have done the work there and then except that they did not have an essential bracket (having just used it on the previous job). Arrived following day and I am very pleased with the work they have done. Installation was performed efficiently and quickly. Overall my experience with them was very good, they were very courteous and tidy. Would certainly use them again and recommend them to others. **Customer in Pulborough, 14 December 2011**

Fitted amp to existing aerial to enable new cable to new television in kitchen, and to enable another television to work once we switch to digital.

10 / 10

An extremely polite and friendly guy, very helpful, didn't try and make us spend money unnecessarily. Did the job efficiently and cleared up. Wouldn't even have a cup of tea! I would recommend him to anyone. **Customer in Shoreham-by-Sea, 21 November 2011**

Amplified Aerial Splitter Fitted

10 / 10

Moved house yesterday and the previous owners had just cut all of the wires to take their aerial splitter with them (ridiculous!), spoke to Gav at G C Aerials at 11am this morning and he had the splitter fitted by 3pm and all the TV's working, brilliant...!!! Can't recommend G C Aerials enough, great work..!!!! **Customer in Worthing, 4 November 2011**

New Freeview Aerial

10 / 10

I had been experiencing reception problems on our two analogue TV's, One had a freeview box, but was still poor. Gavin arrived early and fitted a new high gain aerial and set it up. He found some issues with my four way splitter and added an amplifier/splitter set up. All the analogue channels are crystal clear even on my 30 year old portable TV upstairs. The aerial direction was optimised for Crystal palace, which still left some freeview channels wobbly, but by March next year with the changeover he advised these should be perfect. Great job and highly recommended, was polite and helpful despite being stung by a Wasp on our roof. **Customer in Steyning, 15 July 2011**
