A major refurbishment that took five weeks to complete. This is not the first time we have used Mark and his team, and once again we have been extremely impressed by the quality of service provided. I would recommend them without hesitation. **Customer in Weybridge, 16 April 2012**

#### Tanked and decorated utility room, tiled and decorated cloakroom

I've used Mark (and his crew) before, and the real clincher is he treats your home like it was his. They look for ways to fix things that are both resourceful and practical as well as on budget and they don't give up until the job is done to a high standard. My utility was a mess, full of damp and a wet floor. Others quoted the usual damp proof course route without much thought; Mark dug up the floor inside and out, until he was satisfied he had found the problem - then made it look beautiful, and warm! Worth every penny. **Customer in West Byfleet, 5 March 2012**

#### Plastering, plumbing, moving radiators, building, damp cure and prevention

Recommended by friends after they had a re-modelling of their house and very much worth it. Excellent in all aspects of the very bitty list of things that needed doing. We were kept informed of all progress and always asked when a decision needed making - i.e. No assumptions were made because of any lack of absolute direction from ourselves. Result was top quality work done in a minimum of time as nothing needed un-doing

House was kept clean throughout with everything protected during the daytimes - even some areas that were not being worked in! Very friendly blokes as well - no problems leaving them in the house on their own. **Customer in Chertsey, 5 March 2012**
