Supplied and fitted woodburning stove

10 / 10

Installed a new woodburning stove in an existing fireplace. Several visits needed as there was some demolition work needed on the old fireplace. All work was carried out efficiently and all the Heat and Home staff were very polite and helpful. Small problem with the appliance (manufacturer's fault, not Heat and Home's) sorted out quickly. Would definitely recommend them to others **Customer in Rochester, 23 March 2012**

EMERGENCY BOILER REPAIR

10 / 10

My Combi boiler broke down today so no heating or hot water, I have Insurance but their engineer could not come until Monday!, asked if I could organise my own engineer, was advised that I could, so I searched on Checkatrade and found Heat and Home. Spoke to Glynis who said she could have someone look at it tomorrow for me. About 1 hour later I got a call to say that they could now come today, in about 1 hour! Engineer arrived sooner than expected, and has repaired my boiler. Thank you all very much, much appreciated. **Customer in Gravesend, 23 February 2012**

Installed new boiler

10 / 10

Really efficient. Very knowledgeable about the types of boiler when giving quote. Work was carried out promptly and with remarkably little mess! Ben and Gareth very polite and helpful. So impressed we booked them in for another job, fitting a woodburning stove. **Customer in Rochester, 20 January 2012**

Repairs, new boilers and gas safety inspections

10 / 10

Heat and Home undertake all our gas work for our lettings company. We find them friendly yet professional and completely trustworthy. We have to instruct contractors for repair works spending our landlords money, so have to be certain of prices and confident that the work will be completed to a high standard. Heat and Home deliver each time. **Customer in Sittingbourne, 15 November 2011**
