**To re-enforce the rotted timbers of a stud wall in a shower area, fit aqua board and new shower and make good the shower area.** 10 / 10

Both Steve and Kevin worked extremely hard during the period the work was carried out. They were always on time and reliable and the work was completed on schedule to an excellent standard by I believe, from the end results and their

reassuring manner, two very experienced traders. Having had a previous very bad experience with this shower area we are now confident that the work that has been carried out is of a level to last. We were always kept informed and felt happy to ask questions, which we did on a number of occasions. I would highly recommend this very courteous firm.
