Assessment of virus problem on PC, then purchase and installation of replacement

10 / 10

Very happy with the work. Had an emergency, as system had locked due virus and son needed it urgently for GCSE revision. Mr Dixon turned up quickly, at the weekend, assessed the problem, which was terminal, hooked up a temporary system on loan, and then ordered and installed a new computer within days. He does not use computer speak, and did not have that horrible habit of lecturing in gobbledegook the intricacies of IT. He just got on with the job. He was tidy, articulate and polite. Excellent!!! **Customer in Carshalton, 5 May 2011**
