### Most Recent Customer Feedback

#### Renovated a one bedroom flat, refurbished kitchen and bathroom

9.5 / 10

Wayne and his partner were always very courteous and helpful. They came up with suggestions when needed and used their professional expertise when required. They tidied away after finishing work and disposed of their rubbish. Their work was of a high quality. **Customer in Hove, 8 January 2012**

#### New bathroom

8 / 10

They guys really helped us plan the new bathroom with lots of good suggestions and ideas, and did a great job, we would definitely use them again. **Customer in Brighton, 22 August 2011**

#### New timber windows and patio doors; refurbishment and draught proofing of front door and threshold; double-glazing of existing windows; plus misc. Refurbish and fittings

9.3 / 10

A high standard of work, with intelligent, creative and willing solutions to any problems encountered. There were a couple of minor, unforeseen extras that had to be added to the overall cost, but these could not possibly have been anticipated and I was kept well informed when this occurred. Otherwise, everything was completely as per estimate regardless of how long things actually took. They are really easy to have around, and I was always very happy to leave them to it and give them the keys as necessary. Hard workers when they're here (and, generally, it was only one of them here at a time), but my only gripe was that they seldom did a full day here or worked here every day, which meant the time scale from start to finish was longer than if they'd worked here consistently. But I probably hoped for more than it was reasonable for me to hope for (in terms of the time scale), and the end result has most definitely been worth waiting for. **Customer in Brighton, 1 July 2011**

#### Basement kitchen conversion

10 / 10

These guys are a real gem of a company. They were recommended to us and we're so glad that we chose them to work on our project. It was quite a large job to undertake with two small children in the house but they couldn't have been

more helpful in ensuring that they caused as little disruption as possible. Brilliant communication, great ideas, good project management with 3rd party contractors, top quality workmanship and genuinely enjoyable to have around the house. Really very good at understanding our design vision. They also worked very closely to ensure the project remained within budget and took a lot of pride in the end result too. We wholeheartedly recommend them. **Customer in Brighton, 1 June 2011**

**Painting, repair and upkeep of front and back of conservation property. Plus installation of a kitchen and bathroom** **8.8 / 10**

These guys provide a great service. They kept us involved all through the major works and co-ordinated all aspects, from scaffolding, painting, roof repairs and even drainage. All costs were discussed in advance if there was any change from the original estimate, so we felt fully confident that they would discuss it with us first and also offer a range of options. They and all the guys who did the work were really friendly and professional and worked to a really high standard. In addition to the major works they have also fitted my kitchen, resurrecting it from a previous near disaster by a different workman and a bathroom, both of which I'm really pleased with. I'd have no hesitation in recommending them, and in fact have already recommended to a number of my friends. **Customer in Brighton, 28 February 2011**
