#### Complete Garden Redesign

10 / 10

Jason's team came in and completely redesigned our very small garden, from a patch of lawn with no borders or features to a magnificent landscaped garden rich in character and now full of fragrant plants and shrubs. It now looks as though the garden has been like this for years and we can't wait for the shrubs and flowers to mature and completely fill the space. Not knowing what we wanted was not a problem for Jason who was able to design and produce a truly wonderful example of how much can be achieved in such a small area. We were kept informed all along the design process and during the build. Regarding the earlier negative feedback from the Bexhill customer Jan 2012 Sure, the job took slightly longer than originally estimated, we had some awful weather and although the guys carried on working in the wet, on occasions they did give up and go home early. I would have in the circumstances Sure, changes had to be made from the original plans, however when it was a change we wanted to make there were no problems whatsoever it was simply done. Sure the guys didn't always sweep up at the end of the day and building materials etc did take over our garden for the duration of the build, and yes we could have gone outside making a nuisance of ourselves, moving everything around and sweeping up every day, but we didn't, we left this professional team to get on with what they do best. Have a look at the photos and see for yourself! **Customer in Pevensey, 24 May 2012**

#### Pave large terrace.

10 / 10

Friendly reliable workers. Overall very impressed. Happy to go out and leave them to get on. **Customer in Eastbourne, 1 May 2012**

#### Conversion of decking patio area to paved patio

10 / 10

I cannot speak highly enough about the work done by Jason and his employees, Gary and Charlie. My wife and I are absolutely delighted with the result. The two weeks in which this work took place were some of the foulest weather

imaginable, yet the gruelling work never stopped and was completed on schedule to a very high standard under the most trying conditions. Well done and thank you. **Customer in Pevensy, 1 May 2012**

**New patios and path**

10 / 10

We needed to update/replace our old patios and Jasons Landscping was the right place to go. The work carried out far surpassed our expectations. Jasons operatives Gary and Charlie were both very professional in there approach and offered suggestions and modifications that further enhanced the final outcome. Fantastic! **Customer in St. Leonards-on-Sea, 24 March 2012**

**Design of steeply sloping back garden**

9.5 / 10

A long upward sloping drive and back garden made this a challenging project for access and work. Snow and rain made it impossible to work at times but the finished work makes it all worthwhile and every effort was made to keep within budget. We are very pleased with the result and the courtesy shown to us at all times. **Customer in Eastbourne, 20 March 2012**
