#### Imprinted concrete - new driveway

10 / 10

If you are looking to hire a company to do your drive and thinking of imprinted concrete then I would recommend Steve and his team 100%. Not only did they charge the price they quoted, no hidden extras, but their standard of work didn't disappoint. They kept me informed at all times of progress, arrived when they said they would, cleaned up after themselves as promised, and always courteous. I am SO HAPPY with my new drive, it has turned out beyond my expectations and would definitely not only recommend Kingswood Driveways but will use them again when I'm ready to patio/deck my back garden. If you are not sure about imprinted concrete I promise you will not be disappointed. Mine is dark grey London cobblestones and looks amazing! **Customer in South Croydon, 21 November 2011**

#### Concrete driveway of around 40 sqm

10 / 10

Steve Townsend of Kingswood Driveways was recommended to me by someone in the driveway business himself, because of Steve's expertise in handling concrete and particularly pattern-imprinted concrete. We required a fairly straightforward brushed concrete side yard with drainage and new manhole covers, but in a rather difficult site. And the result is perfect and has even impressed other tradesmen. Steve, Kirk and Ron took on our requirements for a level area for composting and recycling bins and for the remainder to fall to a new central linear drain and overcame all the difficulties without troubling us. A very good aspect was the way that Steve kept me informed of when they would be working and the logistics of the digging out and concrete delivery so that we felt we were in the picture throughout. If I needed any more drives laid I would certainly go back to Steve! **Customer in Kingston upon Thames, 17 November 2011**
