After employing this company to fix and replace my flat roof I decided due to the standard of work to get them in for all future work, excellent. **Customer in Addlestone, 1 April 2012**

Replace flat roof.

Excellent work and dealt with the removal of roof tiles that were undersealed with foam insulation in a very competent manner. Can't begin to explain how difficult they are to remove, even manufacturer of insulation could offer no worthwhile advice. Even with these difficulties job completed on time, on budget and to specification. Would have no hesitation in recommending this company. **Customer in Windsor, 23 March 2012**

Guttering was leaking and weather damage secured.
