### Most Recent Customer Feedback

#### Design and construction of back garden

10 / 10

Stewart and his team were excellent and from design through to construction they were very professional indeed. Key points: the design was fresh and innovative but reflected our wishes and, very cleverly, the limited space. Construction took about 7 weeks, but the whole process ran on rails and was very well planned and organised. Stewart and his team always did exactly what they said they would do, when they said they would do it. Stewart always communicated issues in an open and clear manner and we always felt that he was looking after our interests. The final result is a delight, and we are both very pleased indeed with our new garden. We would have no hesitation whatsoever in recommending Stewart. He was a real pleasure to work with. **Customer in Haywards Heath, 16 March 2012**

#### Large new decked sun terrace, artificial grass lawn, fencing

10 / 10

Would wholeheartedly recommend Stuart and his team. Excellent workmanship, imaginative design, tidy, helpful in adapting to my changes of details, and very easy to work with. We have dogs and all the boys were great at keeping gates shut etc and tolerating them. Can't wait to start planting and organising the beds and decks. We have gone from a wilderness to a garden we can really enjoy. Roll on summer. **Customer in Brighton, 5 January 2012**

#### Walls repaired and rendered, existing flower bed built up and laid with sandstone slabs to form seating, erected linear fencing and planted flowerbeds

10 / 10

We chose Living Colour because during the initial consultation. Stuart seemed to grasp very quickly what we wanted and also added some useful suggestions. The work was carried out quickly and to a very high standard. Stuart and Ryan were very professional yet friendly. They arrived promptly each morning and left the place clean and tidy at the end of each day. David offered welcome advice on suitable plants, then carried out the purchase and planting. Overall we are very happy with the end result and the team was a pleasure to have around and work with! **Customer in Hove, 2 September 2011**

**Re-design back garden to include interlocking patios, rendered walls, lawn area, water feature and new beds for shrubs.**

10 / 10

Stuart visited and saw our existing jungle of a garden. He went away and came back promptly with some designs which we discussed and chose a final design. The estimate was about what we had envisaged and we gave the go ahead. Stuart gave us a start date and was there as agreed. He and his team, who were very personable and professional, worked extremely hard and in some very wet weather at times. Their attention to detail was first class and the choice of plants was perfect. From having a garden we did not use to sit out in or barbecue we now have a beautiful garden we will enjoy for many years to come. We highly recommend Living Colour Landscapes. Thank you Stuart, David, Orlando and Jordan. **Customer in Hove, 20 June 2011**

**Replacement of lawn by decking**

10 / 10

Done with great care - and clearly a love of making something beautiful. Stuart and his team worked like oxen - thus finishing the job in record time. The original quote came in beyond our budget so Stuart spent time working out how the work could be trimmed to fit our needs. Really great company. We'll definitely be back if we want more work on our garden. **Customer in Brighton, 6 June 2011**
