Most Recent Customer Feedback

Wiring to an outbuilding

10 / 10

This is the second time we have used Lucas Electrical Services and we just can't fault them. We remain amazed that the price was what it was for such quality workmanship. Absolutely no hesitation in recommending this company. **Customer in Worthing, 22 August 2011**

Rewire with extra sockets, cooker circuit and down lights in kitchen.

Extractor fan, light and shaver point in bathroom

9.8 / 10

All work was done to very good standard and Rob was very flexible on the stages of work required, offering good advice on best solutions to problems encountered during house renovation. Would recommend and have no hesitation in using again. **Customer in Worthing, 1 July 2011**

Fitted new consumer unit

10 / 10

The work was completed to what seems to us to be a high standard. Mr Lucas was friendly and efficient and we have no hesitation in recommending this company. We suspect they are the sort of company for whom no job is too small and yet no job beyond their capability. We would certainly use them again if we have need. **Customer in Worthing, 20 April 2011**

Replacing a light fitting after water damage

9.5 / 10

The electrician Matthew did a great job, we've had no problems since and the fitting he put in has made changing the light bulb a lot easier. He was helpful and friendly at a reasonable price, I would definitely recommend the company. **Customer in Brighton, 6 January 2011**

Found loss of 3 phase power fault to our factory.

10 / 10

Arrived when he said he would. Efficient, tidy and explained the problem. Brilliant.

Customer in Worthing, 24 February 2010
