Most Recent Customer Feedback

Central Heating Differential Valve Diaphragm not working

10 / 10

I called in the morning and although they were busy the trader turned up in the afternoon and was a complete god send. Problems that other engineers weren't able to diagnose correctly or fix, trader fixed in under 1 hour. After 4 days without hot water or central heating and ridiculous quotes from other trades to fit parts, I couldn't recommend MOS Sons higher. True professionals and extremely well priced. **Customer in Guildford, 8 February 2012**

Hot water cylinder issue

10 / 10

We had an issue with our hot water system, causing it to not function. Ian came and investigated the issue, and the following day his brother came and fixed it. They drained and flushed the hot water cylinder, to clear any blockages, and replaced a faulty T&P relief valve and a faulty pressure gauge. Ian and his brother provided us with exceptional service, and at a very reasonable price. We will definitely use them again. **Customer in Guildford, 10 November 2011**

Replacement of hot water cylinder

10 / 10

I would recommend them. They were prompt helpful and courteous even tho the job was rather more complex than they or I had anticipated and the cost was substantially more due to very basic errors made by the plumber who installed the original cylinder ! The work was neat and to a high standard. **Customer in Woking, 14 September 2011**

New boiler.

9.3 / 10

Very good work done. **Customer in Milford, 28 February 2011**

Replaced faulty parts on boiler.

10 / 10

Very reliable service - extremely polite and willing to help. We would have no doubt in recommending them. **Customer in Guildford, 25 February 2011**
