### Most Recent Customer Feedback

**Central heating didn't work on a cold day. He came out the same day and got heating back on. Diagnosed problem and put chemical in radiators and came back to flush out at a later date. 9.3 / 10**  
Appreciated him coming out and being really helpful on the telephone on the day it wasn't working. Got heating up and running, came back and fixed problem. Now radiators heating up as they should. I would recommend him to other customers. **Customer in Surrey, 8 February 2012**

**Boiler would not start up. 10 / 10**  
Our boiler failed to start up on 29th December. Thinking that it would be a difficult time of the year to get someone to fix it, I phoned around and eventually got hold of Neil. I described the problem and he agreed to look at the boiler and true to his word he arrived 30 minutes later and fixed the problem in about 15 minutes. A fantastic service. **Customer in Worcester Park, 30 December 2011**

**Gas safety inspection 10 / 10**  
Excellent service would highly recommend **Customer in Taunton, 13 April 2011**

**Gas boiler repairs (parts replaced). 10 / 10**  
Boiler was out of action straight after New Years Day. Rang up Neil one morning and he was immediate available, came around, spent little time to find the problem, explained what the situation was and quoted on how much to have it fix. Came back next day with the parts and had the tap running with hot water and boiler all coming back alive. Neat and tidy young lad, knows what he's doing, top notch timekeeping also. Would highly recommend it to anyone else. **Customer in New Malden, 5 January 2011**

**Boiler Service 9.8 / 10**

Good, reliable and friendly. Would recommend. **Customer in Worcester Park, 23 August 2010**
