Most Recent Customer Feedback

Block paved feature, block surround with a devon pink gravel garden 10 / 10

We are very pleased with the work. A mistake was made BUT rectified straight away without any fuss or quibble. Wish we had found this firm earlier for other work we had done. **Customer in Worthing, 15 December 2011**

Landscaping-re-constructing existing border, planting, mulching, removing old plants and weeds. 10 / 10

Natural Touch have been extremely efficient at every step of the way with our garden work. They provided a clear, concise quotation at the outset and started work at the time planned. They work incredibly hard, and I was amazed how much they achieved over a short space of time. They took a lot of care when working to protect the grass, clear all the debris and tidy up completely at the end of the job. They were able to offer advice and expertise on the type of plants and their requirements. I would happily recommend them and we look forward to having some more work done in the near future. Findon Village **Customer in Worthing, 28 November 2011**

Front Driveway and Patio area with extension wall and fencing 10 / 10

I could not highly recommend the professionalism of Andy, Lawrence and Jason. They are true workers and provide a high level of workmanship. We found the whole process of tidiness, reliability, courtesy and quality of workmanship to be at a very high level. There are "cowboys" out there, be careful, we had been victim to them, Andy and the guys reassure you in the quality of their work. I can not fault any aspect of their work, worth every penny. Thanks again lads **Customer in Worthing, 24 October 2011**

Completely new garden. Paving, raised flower beds and new lawn 10 / 10

After approaching three local companies from 'check a trade', we found Andrew Rye of Natural Touch Landscapes Ltd the most understanding of our requirements. We redesigned our garden and Andy added to the ideas we already had. We felt confident of his abilities, and he was competitively priced. We were not disappointed. Andy and his team are

lovely people to deal with, very hard working, reliable, tidy, and nothing was too much trouble. Both my husband and I are delighted with our new garden. Natural Touch Landscapes Ltd removed the old shed, prepared a concrete base for a new shed, and removed an old pond, paving and lawn. They replaced some fence panels, created raised flower beds and laid a new lawn. The work was completed on time, to the standard we would expect from a business that knows what they are doing. We felt confident when we asked them to do the work, and our confidence was justified. We will certainly use them again when we have our front garden and drive replaced in the future. **Customer in Lancing, 27 September 2011**

Old patio removed and new patio/path laid, new side gates fitted

10 / 10

We were very pleased with the work done, Andy and team kept any mess to the minimum possible and kept us informed of progress of the work at each stage, discussing with us any slight changes. We would certainly recommend and use them again. **Customer in Worthing, 15 September 2011**
