Full Rewire of house including kitchen and bathroom 10 / 10

Kevin carried out the rewire for the entire house as part of a full refurbishment program. The high spec job required a full redesign of the lighting system throughout, wireless smoke alarms, underfloor heating on two floors, kitchen and bathroom. Throughout, Kevin assisted in the design through to execution of all electrical works - sourcing materials where he could. Both Kevin and Kit were a pleasure to have around and their workmanship was top notch **Customer in Hove, 27 November 2011**
