Disabled bathroom refurbishment

10 / 10

Paul and his team transformed our 1970s bathroom into a state of the art disabled bathroom for my husband, complete with a level access half height shower, new washbasin unit and bidet loo. Paul gave some excellent advice at the planning stage, and, while the work was being carried out, I was very impressed with his attention to detail in meeting my husband's needs. We were both very impressed with his project management skills, co-ordinating all the essential trades who slot into the process as required, meaning that the work was completed at the earliest date possible. The result is a bathroom that has been admired by everyone, suitable for my husband's needs, but one which can readily be used by other members of the family and visitors. We very much appreciated how clean the house was kept throughout the process, and we would thoroughly recommend Paul to anyone else contemplating an updated bathroom. **Customer in Eastleigh, 26 July 2011**
