### Most Recent Customer Feedback

#### Complete bathroom re-furbishment, installation of wooden floor through the flat, re-plastering of bedroom and decoration of entire flat.

9.8 / 10

I highly recommend Slawek and his team. He took our job on from an associate who couldn't do the work for us. He stuck exactly to the original quote and was completely transparent about any extra work that was either recommended or requested. His team were hard working, polite, trustworthy and most importantly very good at their jobs. Slawek contacted us everyday and never did anything without double checking with us first. He was contactable at all times and always attended the site in person when we had specific questions or requests. We set a very ambitious finish date which we couldn't move and he pushed his team very hard to complete the job exactly on time for which we were immensely grateful. His team attended every detail including cleaning up, replacing furniture and even fitting pads to the furniture to protect the new wooden floor. He is at the upper end of the price bracket but the quality of the work is so exceptional I would say it is worth every penny. **Customer in London, 16 September 2011**

#### Re-rendering, plastering and complete repaint outside of house.

10 / 10

I cannot praise this Company enough. As above 10 out of 10 on all counts. The workmanship was excellent and overseen almost every day by Slawek himself. Everything was completed perfectly right down to the last detail. We are extremely pleased and certainly not hesitate to recommend them or use them again ourselves. **Customer in Banstead, 16 May 2011**

#### New en-suite bathroom and redecoration.

10 / 10

Slawek and his team of craftsmen were a pleasure to do business with and we would recommend them to anyone without hesitation; in fact for the seven weeks they were here, they almost became 'members of the family'! We had no concerns about giving them a full set of keys to the house as their trustworthiness was never in doubt. The quality of their work was exemplary and when unforeseen problems arose, they dealt with them in a stress free effortless manner. We look forward to having them back in the not too distant future. **Customer in London, 20 February 2011**

**New remodeled bathroom and velux window installation**

9.8 / 10

Slawek and team created a luxury family bathroom for us, which ended-up very close indeed to the computer-generated 3d design we had received from the bathroom shop! This was a big job over several weeks and involved knocking-down an adjoining wall where the old toilet was, in order to make one large bathroom. The old bathroom was completely gutted and Slawek and team installed the new plumbing for the sanitary ware and the electrics for the lighting, extractor fan, under floor heating and dual-fuel radiator. The team then finished off by tiling the walls and floor and installing the shower, bath, toilet, basin and wall cabinet. The overall result was a stunning family bathroom and Slawek provided good after-sales service rectifying some small snags. Slawek was a pleasure to deal with and always worked hard to incorporate our requirements / change requests. I would highly recommend Slawek as a result. **Customer in Epsom, 1 October 2010**

**Installed new Vaillant combi boiler and replaced 9 radiators**

10 / 10

Slawek's team did a great job. His plumber Emil was extremely efficient, hard-working and tidy. The job was carried-out with the minimum of fuss and disruption. I was impressed with the fact that we were able to keep the shower going throughout the works. We had been told by British Gas previously that it would not be possible for the shower (a pumped shower) to operate with the combi boiler. Emil adjusted the pump so that it could continue to operate temporarily while the bathroom was being re-done. Slawek arranged for the installation to be independently certified by a Gas Safe plumber. Our new central heating system is running very well. **Customer in Epsom, 17 September 2010**
