Most Recent Customer Feedback

Re wiring of the house

10 / 10

If you have to have the upheaval of your house being rewired unexpectedly then I could not recommend Dave highly enough. One of the most efficient and caring trades people I have had come to the house. He was incredibly tidy and always ensured we had minimum disruption. **Customer in Banstead, 29 April 2012**

Elec cert, PAT testing, lighting re-wire on catering trailer

9.5 / 10

We have used David/Power To You before and were very pleased with his results. He is very knowledgeable across the board and seems to thrive on challenges - both times we had unforeseen problems but he quickly and cheerfully came up with effective solutions without cutting corners and didn't leave until everything was tried and tested to our mutual satisfaction. No hesitation in recommending him. **Customer in Sutton, 21 March 2012**

Re-wiring of our lounge and spare bedroom. Installation of new lighting and sockets.

10 / 10

David was recommended to us, we had a prompt quote and it appeared very good value. He was able to start promptly on our preferred date and got the work done on-time. We will definitely be using David again. Overall, the work has been completed to a very high standard. Thanks David. **Customer in Epsom, 3 January 2012**

Installation of alarm system

10 / 10

I had an alarm installed by David and cannot recommend him enough. He was able to provide good information on the options available to me and the quality of his workmanship was excellent. I went for a wired system, as opposed to wireless and it's been absolutely faultless - very refreshing considering the numerous issues other people have had with their wireless alarms. The most important thing though, is the piece of mind the system offers. Excellent work all round. **Customer in Milton Keynes, 20 December 2011**

Whole house installation check and remedial work for compliance

10 / 10

In June 2008 Mr Paine checked our house for compliance and then quoted for remedial work that was required to earn a certificate of compliance. We accepted the quote and he spent a week (while we were in Lanzarote) sorting everything out. When we got home he was just finishing the vacuuming. House spotless, everything done, certificate waiting and all for quoted price. Since then he has done several jobs for us and for friends and neighbours the latest for us being outside lights in the soffit around our rear extension. I have no hesitation in recommending Mr Paine for any work and feel safe in so doing because I'm confident that if he couldn't do a job he'd say so before he took it. **Customer in Worcester Park, 15 November 2011**
