Most Recent Customer Feedback

Fit new gas hob, sink taps, replace radiator valves 10 / 10

I was very impressed with the way Paul handled this job. He turned up on time, kept everything neat and tidy, got all the work done without any fuss, delays or complications and cleaned up thoroughly afterwards. I would certainly use him again and would recommend him very highly. **Customer in Camberley, 17 May 2012**

Faulty hot water system 10 / 10

Prompt, tidy, and knew his job. Excellent service **Customer in Lightwater, 11 May 2012**

New vanity unit and WC in cloakroom 9.5 / 10

Whilst pleased with the installation, my (expensive) floor tiles were damaged by an angle grinder(?) used to cut through the skirting board. I was also left with gaps in the skirting due to mis-measurement of the vanity unit, which I have to correct. That aside, the work was done tidily and to spec. New gate valves were required in the airing cupboard and these were fitted at a reasonable cost. **Customer in Guildford, 3 May 2012**

Reply from Trader: Unfortunately, the unit should have been put in before the tile floor and skirting board were laid on to enable a perfect fit. It is regrettable that the customer decided to go ahead and fit in the floor and skirting board before I could slide the unit in. I had to work around the customer's decisions to install floor and skirting prior to installing the unit, not an ideal way of ensuring a perfect and neat fit.

Replace shower door, both mixer tap, basin taps and stop cock 10 / 10

Paul completed the work on our bathroom and kitchen with the minimum of disruption and was friendly and courteous at all times. We are pleased with the finished results and would definitely recommend him **Customer in Woking, 19 April 2012**

Refit of bathroom and toilet, including tiling 10 / 10

All of the work was carried out to a high standard and the tiling in particular is impressive, because of the uneven surfaces and corners. We would certainly recommend PPH. **Customer in Guildford, 17 April 2012**
