This is the second major build that we have asked of Peter, Dean and Claudia within the past three months and, on both occasions, they have provided us with a very professional and quality-based service. They have been courteous throughout, and our needs were fully embraced at all times. We will certainly use them again, and we strongly recommend them to others without hesitation or qualification. **Customer in Witham, 6 October 2009**

A great deal of thought was given by Peter in the planning and sourcing stages, and he showed total empathy with our needs throughout. He took full responsibility for solving any issues as they arose, and always kept us informed of how matters were progressing.
