#### Complete new bathroom including vanity units, lighting tiling and flooring 10 / 10

This company offered a brilliant service. Their quotation process was accurate and they provided an updated quote every time we made an amendment to the scheme. They worked tirelessly to achieve the scheme we requested with several visits to our home, nothing was too much trouble and they even arranged for us to visit another client to "test out" the bath. They worked within the agreed timescales and finished the bathroom to a very high standard. We are absolutely delighted with the finished product and would not change a thing. We would not hesitate to employ this company in the future and they come highly recommended. **Customer in Witham, 30 July 2011**

#### Complete new kitchen and built a conservatory together with a new patio and fencing 9.8 / 10

Previously used Peter and his team in 2010 to refurbish the bathroom. Because of the quality of the work and manner in which it was carried out I decided to have a completely new kitchen and a conservatory plus a sandstone patio and surrounding fencing built. Peter took on the role of project manager and designer and sourced where necessary skilled workmen to complete the job. Despite one of the wettest and coldest autumns Peter and his team worked to complete the project on time. Due to the adverse weather Peter was not able to complete fully all the outside work. However he remained in touch and at the first suitable dry weather period completed the work. I was impressed with all the sub contractors Peter had to use from the ground worker James, the tiler and plasterer and glaziers. All workmen followed Peters lead in their professionalism politeness and hard work, Peter's two trusted right hand men Dean and Andrew are completely reliable tidy and know their business. A highly recommended team. **Customer in Chelmsford, 2 June 2011**
