Complete repiping of downstairs central heating

10 / 10

We had had trouble with our Cen.Htg for the past 18 months since having a new boiler installed by a previous person. We were without heating all during the cold weather until I was recommended to use Mr Lawes. Chris found a lot of faults made by the previous installer and also found that we had developed a leak somewhere downstairs(probably all the jet washing). As we have solid floors and microbore pipes we had to have it all repiped. This was done with minimal upheaval and good humour and lots of tea by Chris and his sons. Heating is now fine and no further problems. We miss having them around. **Customer in Yateley, 27 February 2012**

F75 fault on my boiler

10 / 10

Chris and his son were very prompt in responding to a boiler failure call out. The problem was diagnosed and a replacement part was fitted. I was impressed with how Chris completed the job, he was very informative on what he was doing all the time he was here. His sense of humour was a delight! I would certainly recommend him as a trustworthy engineer. **Customer in Bracknell, 20 February 2012**

New central heating system installed

10 / 10

Would definitely recommend them to any one. They were on time, very polite and even done the washing up! The work was done to a very high standard and the aftercare has been excellent. **Customer in Camberley, 26 January 2012**

2 boilers replaced,1 water tank moved and a valve replaced

10 / 10

As a family we have used Chris and his sons 4 times and on each occasion they have been prompt on arrival, professional, friendly and have done an excellent job and we would be pleased to recommend them **Customer in Camberley, 15 January 2012**

Boiler Repair

10 / 10

The pilot light in the boiler at my address failed to ignite and after having another company come round and tell me that I needed a whole new boiler fitted (the current boiler is not even 6 years old!), Chris from Progas was recommended to me by a work colleague. During my initial call to Chris he was able to tell me what he believe was wrong with the boiler and how he was going to fix it. He arrived the very next day even though he stated that he was unsure he would have time to fit me in and after a short time he had diagnosed the problem, fitted a new part which he already had in his van and the boiler was up and running again having also had a thorough service. The end price was better than I could have expected and I would highly recommend this company to anyone. Thanks Chris! **Customer in Camberley, 6 January 2012**
