Most Recent Customer Feedback

Fitting downlighters, electrical fault investigation and rectification. 9.8 / 10
Marcin and his team did an excellent job and I'd recommend them. The work was completed to the quote, to a high standard and at a competitive price. **Customer in Reigate, 16 May 2012**

Complete rewiring 9.5 / 10
Very professional and helpful. Marcin spent about an hour going round the house and asking what I wanted before giving me a quote. He had an ipad with him containing a spreadsheet which he was filling in as we went round the house. He was able to give me a formal quote on the spot and gave me a copy of the spreadsheet. The work was carried out on time and to a high standard. Very pleased with the job and would have no problem recommending them to people. **Customer in Epsom, 12 March 2012**

Fitted new Consumer Unit 9.5 / 10
Responded in a very timely manner despite having a backlog of jobs after encountering a problem with the existing wiring, through no fault of their own. Will use again. **Customer in Hook, 12 March 2012**

Full Electrical Re-Wire 10 / 10
We were extremely impressed by Pro-Teck from the initial quote to the completion of works. We had a full electrical re-wire for which the work was carried out professionally, neatly, on time and on budget. All costings were transparent from the outset and the work was finished to a very high standard. We were very happy with Martin and the Pro-Teck Team and would highly recommend them. **Customer in Godalming, 13 February 2012**

A full house rewire plus burglar alarm, tv aerials and security lights. 10 / 10

Pro-Teck were amazing! They attacked the job getting here early and finishing late so that the shortest amount of time for the total job was taken. They are so polite. Finished the job to the very highest expectations. You will not be sorry if you employ them to do your electrical requirements. **Customer in Woking, 10 February 2012**
